

# SCF Connect is your one-stop shop for operationalizing the Secure Controls Framework™

SCF Connect takes the guesswork out of operationalizing the Secure Controls Framework

SECURITY | COMPLIANCE | VALUE

## SECURITY

Use our intuitive tool to rapidly assess your cybersecurity posture and mature and assess your program.

## COMPLIANCE

Collaborate with trusted practitioners to create a holistic approach, nesting security into existing business practices.

## VALUE

Save time and money by accelerating your cybersecurity program with our transparent dashboard approach.

## HOW IT WORKS

### Create Your Account

To start your cybersecurity program, go through a simple registration process.

### Define Your Scope

Easily build your initial control set by selecting applicable controls based on your existing requirements.

### Actionable Dashboards

Visualize your current cybersecurity posture and follow actionable recommendations for maturing your program.

### Continuously Monitor and Improve your Cybersecurity Posture

Continuously monitor and improve control maturity to advance your overall cybersecurity posture and audit readiness.
